Sanjeev Kumar

Currently i am a proactive and detailed **Blockchain Developer & React web3** with 3+ years of experience working as a active contributer of Ethereum and smart contract development in different projects.

EXPERIENCE

Antier Solutions, Mohali — Blockchain Developer

November 2021 - PRESENT

- Design Solidity smart contract for EVM compatible blockchains.
- Integration with various blockchain SDKs. & ASTAR
- Worked with remix_IDE ,DEFI , NFT , ICO, MARKETPALCE ,DAO
- security analysis tools for smart contract development include MythX, Manticore, and Slither
- worked with truffle , Hardhat
- Web3 integration & frontend integration Reactjs

Immanent Solutions, Mohali — Blockchain Developer

september 2020 - November 2021

- Design smart Contract on solidity
- worked with truffle

Besant Technologies , Banglore — Blockchain intern

July 2020 – september 2020

EDUCATION

Kuruksherta University — *B.Tech(CSE)*

August 2015 - May 2019

Technical Skills

- **Technologies:** Ethereum ,solidity Smart contract,truffle, local Blockchain setup, Express JS, React JS, ganache Blockchain .
- **Languages:** solidity , react-js , Rust (in progress)

SKILLS

- Solidity
- Web3
- Truffle
- Hardhat
- Remix IDE
- Ganache
- ReactJs
- Linux
- Git

PASSION

- Wide view about learning the technologies that matters

LANGUAGES

- Hindi
- English
- Punjabi
